Nagovor direktorice

Slovenski podjetniški sklad je letos dopolnil svojih trideset let delovanja. Glede na življenjski cikel je tako rekoč v najbolj živahnih, kreativnih in energičnih letih. Dopolnil pa jih je žal v času globalne nestabilnosti, ki se kaže v posledicah COVID-19 in njegovega vpliva na dobavne verige, v nadaljevanju vojne v Ukrajini, ki povzroča motnje v cenah energije in negotovost pri oskrbi Evrope, ter v številnih okoljskih in podnebnih problemih, ki jih že doživljamo tudi v našem delu Evrope. Zato je naša obletnica nehote dobila nek priokus zaostrenih razmer in predvsem vsesplošne negotovosti, ki nam ne dopušča sproščenosti.

Ne glede na nova dejstva, z doseženimi rezultati zadnjih 30 let, ki so prikazani v številkah in dejstvih na naslednjih straneh, si je Sklad zagotovo prislužil čisto odliko.

Vsem, ki so sodelovali pri ustvarjanju teh rezultatov, v imenu institucije in mojem osebnem imenu iskrena hvala! Zadnjih trideset let je bilo obdobje številnih inovacij in novih naložb, ki so spremenile naš svet. Del teh naložb je bil deležen tudi naše podpore. Je pa res, da je ta preboj bil

Message from the Director

This year, the Slovenian Enterprise Fund completes its thirty years of operation. According to the life cycle, it is practically in the most lively, creative and energetic years. Unfortunately, they have been reached in a time of global instability, manifested in the consequences of COVID-19 and its impact on supply chains, the continuation of the war in Ukraine, which is causing disruptions in energy prices and uncertainty in the supply in Europe, and in many environmental and climate problems, which we are already experiencing in our part of Europe. That's why our anniversary has inadvertently acquired a certain aftertaste of aggravated conditions and, above all, general uncertainty, which does not allow us to relax.

Regardless of the new facts, with the achieved results of the last 30 years, which are shown in the figures and facts on the following pages, the Fund has definitely earned a clear distinction.

To everyone who participated in creating these results, on behalf of the institution and on my behalf, a sincere thank you! The last thirty years have been a period of many innovations and new investments that have changed our world. Some of these innovations also

ustvarjen tudi na račun fosilnih goriv, potrošniških dobrin in neenakomerne globalizacije, ki so sprostila priložnosti hitre rasti in oblikovala družbo, kot jo poznamo. Toda ta hiter napredek je imel tudi svojo ceno, ki smo jo začeli plačevati v zadnjih letih, v zadnjih dveh letih še bolj pospešeno. Zato živimo v času zgodovinskih sprememb. Nič ne bo več tako, kot je bilo. Vstopili smo v obdobje preobrazbe, za preobrazbo v bolj pravičen, miroljuben in trajnosten svet pa moramo ponovno ovrednotiti, kaj je za našo družbo in s tem za naše gospodarstvo pomembno.

Klub svečanemu trenutku in odličnim rezultatom smo se tako prisiljeni osredotočiti na nove mejnike – dekarbonizacija, elektrifikacija, trajnost, naložbe v čisto energijo, naložbe v zdravje ljudi, v zdravje družbe kot celote in v digitalne tehnologije, ki pa nam ne smejo služiti zgolj za iskanje novega ugodja, temveč predvsem za iskanje digitalnih rešitev za naša življenja in za naš planet.

Zadnje izkušnje so nam pokazale, kako pomembno je biti agilen, ustvarjalen in hiter in kako bistvene so v resnici inovacije in nove tehnologije, ki temeljijo na znanosti in raziskavah, na sodelovanju in na podjetniškem duhu. Zato bo fokus spodbud Slovenskega podjetniškega sklada, ob podpori resornega ministrstva za gospodarski razvoj in tehnologijo in ostalih vladnih služb, predvsem v povečanju deleža podprtih podjetij, ki uvajajo nove tehnologije in inovirajo na vseh področjih, ki imajo in bodo imela pozitivni vpliv na začeto preobrazbo naše družbe kot celote.

received our support. It is true, however, that this breakthrough was also created by use of fossil fuels, growth of consumer goods and uneven globalization, which released opportunities for rapid growth and shaped society as we know it. But this rapid progress came with a price, which we have begun to pay in recent years, even more so in the last two years. That is why we live in a time of historical change. Nothing will ever be the same again. We have entered a period of transformation, and in order to transform into a more just, peaceful and sustainable world, we must reevaluate what is important for our society and thus for our economy.

Despite the festive moment and the excellent results, we are therefore forced to focus on new milestones - decarbonisation, electrification, sustainability, investments in clean energy, investments in people's health, in the health of society as a whole and in digital technologies, which should not serve us only to find new comfort, but above all to find digital solutions for our lives and for our planet.

Recent experiences have shown us how important it is to be agile, creative and fast, and how essential innovations and new technologies based on science and research, cooperation and entrepreneurial spirit really are. Therefore, the focus of the incentives of the Slovenian Enterprise Fund, with the support of the Ministry of Economic Development and Technology and other government departments, will mainly be on increasing the share of supported companies that introduce new technologies and innovate in all areas that have and will have a positive impact on the transformation of our society as a whole.

Prepričana sem, da moramo zdaj bolj kot kdaj koli prej stopiti skupaj in narediti konkretno korake pri izpolnjevanju zavez za boljši jutri. Danes potrebujemo akcijo, konkretno rešitve, implementacijo in solidarnost.

Za novih 30 let!

Za konec citat priznane evropske znanstvenice, ki pove več od vseh napisanih strategij:

Marie Curie (1867-1934):

„Ne morete upati, da boste zgradili boljši svet, ne da bi izboljšali posameznike. Vsak od nas je pomemben.“

mag. Maja Tomanič Vidovič, M.Sc.
Direktorica / Director

Maja Tomanič Vidovič

I am convinced that now more than ever we need to come together and take concrete steps to fulfil our commitments for a better tomorrow. Today we need action, concrete solutions, implementation, and solidarity.

For another 30 years!

Finally, a quote from a renowned European scientist, which says more than any written strategy:

Marie Curie (1867-1934):

„You can not hope to build better world without improving the individuals. Everyone of us matter.“

Nagovor ministra

Slovensko gospodarstvo je v zadnjih treh desetletjih doživelovo vrsto sprememb. V svetu danes veljamo za prodone podjetnike in vrhunske člene globalnih poslovnih sistemov in verig.

Ta preobrazba je bila mogoča tudi ob podpori takšnih finančnih institucij, kot je Slovenski podjetniški sklad. Z jasno vizijo, željo in ciljem po sooblikovanju razvoja podjetništva je Sklad pristopil k oblikovanju številnih ukrepov, s katerimi že od svoje ustanovitve naprej in skozi vsa tri desetletja spodbuja rast predvsem mikro, malih in srednje velikih podjetij in sooblikuje podjetniško okolje v Sloveniji.

Sklad s ponudbo mikrokreditov, garancij za bančne kredite, enostavnih spodbud malih vrednosti oziroma vavčerjev premošča marsikatero težavo na podjetniški poti. Obenem je ključni akter v 'start up' okolju, kjer s spodbudami za zagon, semenskim in tveganim kapitalom v kombinaciji s strokovnim svetovanjem, usposabljanji, mentorstvom in drugimi oblikami povezovanja povečuje njihove možnosti za obstoj in razvoj.

Finančne institucije igrajo pomembno vlogo pri zeleni in digitalni preobrazbi naših gospodarstev in družb zaradi sposobnosti zagotavljanja in usmerjanja sredstev v bolj trajnostne, krožne, digitalne pobude in projekte. Predvsem za mobilizacijo zelenih naložb se bomo morali prilagoditi in biti proaktivni pri iskanju rešitev za ogljično nevtralnost.

Message from the Minister

Slovene economy has undergone a series of changes in the last three decades. In today's world, we are considered to be breakthrough entrepreneurs and top links in global business systems and chains.

This transformation was also possible with the support of financial institutions such as the Slovene Enterprise Fund. With a clear vision, desire, and goal to shape the development of entrepreneurship, the Fund, since its establishment and throughout the three decades, designed several measures, to promote growth of micro, small and medium-sized companies and co-shapes the entrepreneurial environment in Slovenia.

The Fund bridges many difficulties on the entrepreneurial path by offering microcredits, guarantees for bank loans, simple incentives of small value - vouchers. At the same time, it is a key actor in the 'start up' environment, where it helps to increase chances for existence and development with start-up incentives, seed and venture capital combined with professional advice, training, mentoring and other forms of networking.

Financial institutions play an important role in the green and digital transformation of our economies and societies due to their ability to provide and direct funds to more sustainable, circular, digital initiatives and projects. For mobilization of green investments, we will have to adapt and be proactive in finding

Eno izmed osnovnih poslanstev Slovenskega podjetniškega sklada je zagotavljanje trajnostnega razvoja in uresničevanje ciljev Evropske komisije in ostalih mednarodnih institucij v okviru razvoja podjetništva. Zato podpira projekte, ki prispevajo k trajnostnemu razvoju in povečanju konkurenčnosti podjetij tako v tehnologijah prihodnosti kot ostalih sektorjih, pomembnih za ekonomski in družbeni razvoj.

Zadnja tri leta so leta velikih sprememb. Ne da bi pričakovali, so bili na Skladu postavljeni pred izzive, morali so preseči stare okvire, stopiti v korak s časom in se mu prilagoditi. To je bilo mogoče, ker se zaposleni na Skladu močno zavedajo, da mora biti Sklad učinkovit servis gospodarstvu.

Čestitam Skladu za 30. obletnico uspešnega delovanja in verjamem, da bomo tudi v prihodnje uspešno sodelovali in spodbujali predvsem naložbe v trajnostni razvoj in zeleno evropsko podjetništvo. Za dobro slovenskega gospodarstva in njegovih zaposlenih.

Matjaž Han

Minister za gospodarski razvoj in tehnologijo / Minister of Economic Development and Technology

Matjaž Han

solutions for carbon neutrality. One of the basic missions of the Slovenian Enterprise Fund is to ensure sustainable development and realize the goals of the European Commission and other international institutions in the context of entrepreneurship development. Therefore, it supports projects that contribute to sustainable development and increase the competitiveness of companies both in future technologies and in other sectors important for economic and social development.

The last three years have been years of great changes. The Fund was unexpectedly faced with challenges and they had to go beyond the old frameworks, keep up with the times and adapt to it. This was possible because the employees of the Fund are strongly aware that the Fund must be an efficient service to the economy.

I congratulate the Fund on its 30th anniversary of successful operation and I believe that we will continue to successfully cooperate and promote investments in sustainable development and green European entrepreneurship in the future, for the good of the Slovenian economy and its employees.

Nagovor predsednika Nadzornega sveta

30 let uspešnega poslovanja Slovenskega podjetniškega sklada je za nami. Leta poslovanja niso bila preprosta za družbo in tudi ne za podjetništvo. Intenzivna dinamika sprememb vedno zahteva hitro prilagajanje. Zato moram na tem mestu pohvaliti prav to lastnost Sklada. Njihova hitra odzivnost, prilagodljivost, strokovnost in seveda tudi velika angažiranost in delavnost so bile resnično vrline skozi tri desetletja, ki jih je potrebno pripisati tej instituciji.

Nadzorni svet je v skladu z vsemi zakonskimi predpisi odgovorno in vestno spremljal poslovanje Sklada. Redno smo se sestajali na sejah, na katerih smo se seznanili z vsemi pomembnimi gradivi in strateškimi dokumenti ter sprejemali odločitve in usmeritve za nadaljnje poslovanje.

Vsi člani Nadzornega sveta smo s svojimi specifičnimi znanji in z izkušnjami iz okolja oz. iz našega področja dela, podajali konkretnne predloge, predvsem v smeri čim boljše in čim hitrejše prilagoditve ukrepov Sklada dejanskim razmeram v gospodarstvu in potrebam mikro, malih in srednje velikih podjetij.

Message from the President of the Supervisory Board

30 years of successful operation of the Slovenian Enterprise Fund are behind us. These years were not easy for the Fund, nor for entrepreneurship. The intense dynamics of change always requires rapid adaptation. That is why I must praise this very feature of the Slovenian Enterprise Fund. Their quick response, adaptability, professionalism and, of course, great engagement and hard work were truly virtues throughout the three decades that must be attributed to this institution.

In accordance with all legal regulations, the Supervisory Board of the Slovenian Enterprise Fund responsibly and conscientiously monitored the operations of the Fund. We met regularly at sessions, got acquainted with all important materials and strategic documents and made strategic decisions and directions for the future.

All members of the Supervisory Board, with their specific knowledge and experiences from the environment or from our field of work, gave concrete proposals, especially in the direction of the best possible and fastest adaptation of the Fund's measures to the actual conditions in the economy and the needs of micro, small and medium-sized companies.

Vodstvo Sklada je z zaposlenimi preseglo vse zastavljene načrte, saj je Sklad v 30-ih letih svojega obstoja skupno podprt skoraj 31.000 različnih projektov ter mikro, malim in srednjem velikim podjetjem skupno odobril dobri 2 milijardi evrov različnih ugodnih finančnih in vsebinskih spodbud za rast in razvoj.

Tako se je Sklad s svojim aktivnim delovanjem v vseh letih obstoja izkazal kot eden vidnejših akterjev med podpornimi institucijami za podporo podjetništva in kot tak aktivno prispeval k nastajanju, rasti in razvoju mikro, malih in srednjem velikih podjetij v vseh fazah razvoja ter doseganju ciljev Evropske unije in Vlade Republike Slovenije nasploh.

The management of the Fund and its employees exceeded all the plans, as the Fund has supported almost 31,000 different projects in the 30 years of its existence, and granted micro, small and medium-sized companies a total of just over 2 billion euros in various favorable financial and substantive incentives for growth and development.

Thus, with its work over all the years of its existence, the Fund has proven to be one of the most prominent actors among support institutions for the support of entrepreneurship and as such has actively contributed to the creation, growth and development of micro, small and medium-sized enterprises in all stages of development and the achievement of goals of European Union and Government of the Republic of Slovenia.

Predsednik Nadzornega sveta Slovenskega podjetniškega sklada /
The president of the Supervisory Board of the Slovene Enterprise Fund

Jernej Salec

O Skladu

„Rastemo skupaj“ že 30 let...

- Naš moto uresničujemo tako pri poslovanju znotraj Sklada, kot pri uresničevanju našega poslanstva.
- Dnevno smo vpeti v podjetniški način razmišljanja in skušamo razumeti potrebe podjetniškega sektorja v Sloveniji.
- Veliko energije vlagamo v oblikovanje partnerstev za trajnostni razvoj, saj se zavedamo, da v globalnem in dinamičnem okolju zmagujejo sodelovanje, sinergije in dopolnjevanje.
- Prepričani smo, da bo na ta način naš moto »Rastemo skupaj« uresničljiv tudi v prihodnje.

About the Fund

„Grow together“ for 30 years...

- We implement our motto in daily operations and in realization of our mission.
- We are constantly engaged in an entrepreneurial mindset and try to understand the needs of Slovene entrepreneurs.
- We invest a lot of energy in building partnerships for sustainable development, because we understand that in a global and dynamic environment, we can only be successful with cooperation, synergies, and complementarity.
- We are confident that our motto "GrowTogether" will also be achievable in the future.

O Skladu

*Nastopamo z jasno strateško vlogo,
poslanstvom in vizijo*

Strateška vloga

Sklad je vodilni finančni sklad za podporo MSP-jev, vključno s start-upi in scale-upi, ki s:

- **finančnimi spodbudami**
- **spodbudami za dvig kompetenc**
- **spodbudami za trajnostni razvoj**

zmanjšuje vrzeli, ki so jih podjetja deležna na trgu, hkrati pa pri svojem poslovanju upošteva načelo ESG.

About the Fund

*We act with a clear strategic role,
mission and vision*

Strategic role

The Fund is a leading financial fund for supporting SMEs, including start-ups and scale-ups, with:

- **financial incentives**
- **incentives to increase competences**
- **incentives for sustainable development**

we aim to reduce the gaps that companies face in the market, while at the same time considering the ESG principle in our operations.

Poslanstvo

1. STRATEŠKO POSLANSTVO

Zapolnjevanje finančnih vrzeli MSP-jev, vključno s start-upi in scale-upi **z zagotavljanjem ustreznih finančnih spodbud.**

2. STRATEŠKO POSLANSTVO

Zapolnjevanje vrzeli na področju kompetenc in trajnostnega razvoja MSP-jev, vključno s start-upi in scale-upi **s spodbudami za dvig kompetenc in spodbudami za trajnostni razvoj** za spodbujanje rasti in trajnostnega razvoja.

3. STRATEŠKO POSLANSTVO

Pri spodbudah:

- zagotavljati **ugodnosti za končnega prejemnika**
- prevzemati višje stopnje tveganj razvoja podjetništva
- prispevati k **makroekonomskim učinkom**

Mission

1. STRATEGIC MISSION

Filling the financial gaps of SMEs, including start-ups and scale-ups, **by providing appropriate financial incentives.**

2. STRATEGIC MISSION

Filling gaps in competences and sustainable development of SMEs, including start-ups and scale-ups with **incentives to increase competences and sustainable development incentives** to promote growth and sustainable development.

3. STRATEGIC MISSION

Ensuring incentives to:

- provide **benefits for the final recipient**
- assume **higher levels of entrepreneurship development risks**
- contribute to **macroeconomic effects**

Vizija

Sklad želi ostati vodilen, prepoznaven in ugleden finančni sklad za podporo MSP-jev, vključno s start-upi in scale-upi s:

- **finančnimi spodbudami**
- **spodbudami za dvig kompetenc**
- **spodbudami za trajnostni razvoj**

po vzoru najboljših svetovnih praks.

Vision

The Fund wants to remain a leading, recognizable, and reputable financial fund for the support of SMEs, including start-ups and scale-ups with:

- **financial incentives**
- **incentives to increase competences**
- **incentives for sustainable development**

following world best practices.

About the Fund

Benefits of incentives

- Nižje obrestne mere**
Lower interest rates
- Nižje zahteve po zavarovanju**
Lower collateral requirements
- Pomoč pri prijavi in pripravi vlog**
Assistance at application and preparing of the application
- Brez stroškov odobritve in vodenja spodbud**
Without approval and administration costs of financial incentives
- Mreženje, mentorstva, usposabljanja v sklopu specializiranih programov prilagojenih mladim podjetjem**
Networking, mentoring, training as part of specialized programs adapted to young companies

- Hitrejši, cenejši in lažji dostop do ugodnih spodbud**
Faster, cheaper and easier access to favourable incentives
- Možnost koriščenja daljšega moratorija**
Possibility of a longer grace period
- Enostavni in hitri digitalizirani postopki**
Simple and fast digitized procedures
- Delitev tveganj**
Risk sharing
- Individualni pristop - iskanje možnih rešitev**
Individual approach - search for possible solutions

Uspetne zgodbe pišemo skupaj

- Verjamemo, da pozitivne spremembe ustvarjajo ljudje z vizijo, pozitivno energijo in željo po sodelovanju.
- Spodbujamo predvsem štiri glavna področja za rast in naložbe za trajnostni razvoj, industrializacijo in ustvarjanje delovnih mest, znotraj katerih predstavljamo uspešne trajnostne že podprte projekte.
- Veselimo se možnosti, da skupaj s partnerji in podjetji ustvarimo nove trajnostne zgodbe.
- We believe that positive changes are created by people with a vision, positive energy and a desire to work together.
- We mainly promote four main areas for growth and investment for sustainable development, industrialization and job creation, within which we present successful sustainable projects already supported.
- We look forward to the opportunity to create new sustainability stories together with partners and companies.
